HEALTHY LIVING

THE GREATEST WEALTH IS HEALTH

THE GREATEST WEALTH IS HEALTH

iCare Benefit's **Healthy Living** provides access to essential healthcare products and medical services.

Healthy Living offers members a high-quality selection of pregnancy, baby, and family-care products specifically designed to address the health and well-being of workers and their most precious loved ones.

With the same benefit of iCare Benefits 0% interest, installment payment plans, workers can now afford to make purchases for the most priceless gift: an investment in their health and the well-being of their families.

HEALTHY LIVING

MY NAME IS CHI PHUONG

24 years old, Accountant

I vaguely knew about HPV, and I didn't pay much attention to it because I thought only married women need to be vaccinated against this virus. After attending an educational workshop jointly organized by iCare Benefits and our Labor Union, I am now more knowledgeable of associated risks and learned how a HPV vaccine can prevent the virus. So I decided to register for the vaccination program. The cost of this vaccine is relatively high, but thanks to the 0% interest installment payment offered by iCare Benefits, the monthly rate is affordable as well. I also decided to register my sister for the vaccination series.

MY NAME IS HONG NY

24 years old, Accountant

To be honest, I knew nothing about HPV or the dangerous diseases caused by this virus before the HPV educational workshop. Thanks to a joint program provided by our Labor Union and iCare Benefits, now I understand that this virus is not only very dangerous but also very rampant in Vietnam with a high infection rate. Personally, I think every woman needs to learn about HPV and have herself and her daughter(s) vaccinated to ensure a healthy life and a happy future.

MY NAME IS THUAN

46 years old, Father, Quality Control Division

My daughter is 14 years-old. We knew about HPV from the media but we haven't managed to take her to the hospital for the vaccination yet since my wife and I are busy with our work while my daughter goes to school during the weekdays. It is great that iCare Benefits helps coordinate the vaccination program right at my factory during the weekend. This is very convenient for both my daughter and I, and we registered without any worries. I will definitely tell my sisters and nieces about HPV and encourage them to get vaccinated to protect themselves and their families.

MY NAME IS THU HUONG

Deputy General Director of the factory

Recently, workers at our factory have been very delighted with the iCare Benefits Program because of the availability of high quality products, home delivery service, and especially the 0% interest installment payments for up to 6 months. Thanks to iCare Benefits, our workers have more access to essential products and services which improves their life. Today, iCare Benefits continues to bring value to our factory to serve not only employees, but also their family members. This is truly a meaningful and beneficial program with the introduction of health-related programs.

MY NAME IS HONG LIEN

President of the Factory's Labor Union

The HPV vaccination workshops coordinated by iCare Benefits are really meaningful and a humanitarian type program. Employees are consulted and vaccinated by professional doctor right inside their workplace which helps them to save travel time and expenses. Workers also enjoy both the subsidized price and the installment payments of up to 9 months without any interest. The vaccine cost is cheaper than the retail price at health clinics and maternity hospitals. Therefore, we are considering expanding this program to other factories in Ho Chi Minh City and Ba Ria Vung Tau. We suggest that iCare Benefits develops more programs and products in the Healthy Living Pillar in order to join hands with more enterprises to care for the well-being and health of our employees and iCare Benefits members.
